In this advanced table:

- The project is divided into distinct phases (Initiation, Planning and Approval, Execution and Monitoring, Implementation and Closure).
- Dependencies and relationships between activities are explicitly mentioned.
- Each phase has its own set of activities, providing a more detailed breakdown.
- Float values are calculated based on the Early and Late Start/Finish times.

This table provides a comprehensive view of the project's critical path, allowing for a detailed understanding of dependencies and timelines throughout the project's lifecycle.
